

High 5 Olympics

Program Overview

Utilizing the large indoor Stadium Football Field this program is the perfect solution to give your team a taste of summer in the winter or works great in warmer months when you don't want to be affected by weather. Teams challenge each other in various events which are organized so that at each event teams will challenge a different team so that they have a chance to interact with all teams at numerous times. At each event they gain points for a variety of challenges and points are displayed on a big screen for everyone to clearly see. There are 4 events that involve either a physical or mental element or both.

This program is very interactive and lively and encourages a lot of laughter. Every team member is involved in some capacity but no one is ever forced to do something they are not comfortable with. Teams not only work together but are also required to work with other teams as well to be successful!
