

# High 5 Racing

## Program Overview

**High 5 Racing** is a competitive team builder requiring collaboration as teams design and build a customized model racecar to race against other teams entries!

To build their cars teams will need to visit pit stops where they can earn parts by successfully completing challenges facilitated by our Pit Crews. They'll experiment with weights, decide on design elements and try to determine what will give them the competitive edge needed to be the ultimate champions. Once teams have completed their racecar they will be given time to perform trial runs and use their team's combined skills and abilities to evaluate performance and make modifications where necessary.

Then it's time to head to the raceway where teams enter into racing heats on our digital gravity-powered racetrack accurate to within 0.001 of a second! The event culminates in exhilarated roars, cheers and shouts as completed cars race to the finish line in the final heat!

This event is further enhanced with the addition of giant screens to showcase racecar stats and replay action!

### Benefits

- ◆ Team work
- ◆ Creative thinking
- ◆ Cooperation
- ◆ Decision making
- ◆ Improve relationships
- ◆ Stress relief

### Time Frame

Flexible and dependent on group size. Min 2 hrs.

### Group Size: 20+

### Space Required

Space 50ft long for full race track but track can be shortened to accommodate smaller areas.

### Cost

Dependent on time frame and size of group; Starts at \$1200
