

# Interactive Casino

## Program Overview

Perfect for a Cocktail Reception, Conference Welcome Night or Meet & Greet. Our Interactive Casino gets guests interacting, sharing laughs and mingling!

High 5 facilitators place guests into teams to play the casino tables. Two teams face off at a time at each casino game so the camaraderie builds and twists are added into the games to encourage guests to get engaged and to get to know their team mates and opposition a little better.

Another option is to shuffle teams up throughout the event so guests have an opportunity to engage with a variety of individuals!

This concept works ideally to interact various groups such as sales teams and clients, staff from regional offices or staff from various departments!

The activity can be further enhanced with the addition of Vegas themed decorations, team costumes and lucky mascots!

### Benefits

- ◆ Team work
- ◆ Cooperation
- ◆ Decision making
