

Children's Christmas Party Entertainment Package

The High 5 It – Children's Christmas Party Packages are designed from years of experience and first hand facilitation of such events. The secret to a successful children's party is giving them something active, fun and interesting to do. Our games and activities included are hand picked to do just that.

High 5 TeamBuilding's "High 5 It" party packages are designed to practically run themselves. Included is everything the organizer needs to run the event simply and successfully.

The package includes 3 game stations and two craft stations where the kids color and create a toy and a tree ornament. The games are winter or Christmas themed and are easy enough for younger kids yet interesting and challenging enough for older kids. Also included are Elf hats for the organizers to emphasize the Christmas theme.

When children arrive they simply visit each station at their leisure and partake in the festivities. Keepsake reindeer bendables are included to be handed out at the game stations as a reward for participating.

If each child visits all 5 stations they will go home with 3 reindeer bendables, a tree ornament and toy that they decorated themselves. The package comes with facilitator notes and game instructions.

High 5's Children's Christmas Party package, designed with years of experience, is all you will need to guarantee a successful party! With one of our packages the work is done for you but we insist that you take the credit!
